Year-to-Date Growth from 2014	27,300	5,900	600
<b>Total Growth Since 2010 (2011 Growth + 2012 Growth + 2013 Growth + 2014 Growth + 2015 YTD Growth)</b>			
	107,300	18,300	900

- Private job growth signals recovery in the economy.
- Between 2010 and 2014, the Las Vegas metro added 80,000 new private sector jobs. So far this year, job levels are trending up another 27,300 on top of that.
- The Reno metro also experienced growth, adding 12,400 jobs between 2010 and 2014. During the first three months of 2015, job levels are continuing their positive trend, increasing by 5,900 jobs in addition to previous job growth.
- The Carson City metro gained only 300 jobs between 2010 and 2014; however, job levels are trending up an additional 600 jobs so far in 2015.
- In total, Nevada added 99,000 jobs between 2010 and 2014. In 2015 thus far, job levels are trending up another 39,000.
