## Team Assemblers/First-Line Supervisors/General Operations Managers Largest Manufacturing Occupations in Nevada (Ten Largest Manufacturing Occupations; 2014 Occupational Employment Statistics Data)

- The Occupational Employment Statistics (OES) survey is a semi-annual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in Nevada and all states.
- October 2<sup>nd</sup> is National Manufacturing Day. In Nevada, employment in mining occupations totals 41,600, or 3.5% of total State employment.
- The occupations with the largest employment are team assemblers, first-line supervisors/managers of production and operating workers and general/operations managers. Combined, these occupations account for 12.1% of total manufacturing employment in the Silver State.
- The top ten occupations in mining earn between \$28,400 and \$106,000 per year on average, the highest paid position being general/operations managers.
- Other manufacturing occupations that pay more than the average for all occupations in Nevada (\$42,300), aside from general/operations managers, are: software developers for applications, wholesale/manufacturing sales representatives, and first-line supervisors/managers of production and operating workers, at \$87,100, \$62,900, and \$55,600 respectively.
