## Retail Salespersons & Cashiers Largest Retail Trade Occupations in Nevada

(Ten Largest Retail Trade Occupations; 2014 Occupational Employment Statistics Data)

- The Occupational Employment Statistics (OES) survey is a semi-annual mail survey measuring occupational employment and wage rates for wage and salary workers in nonfarm establishments in Nevada and all states.
- In Nevada, employment in retail trade occupations totals 140,300, or 11.8% of total State employment.
- The occupations with the largest employment are retail salespersons, cashiers, and stock clerks/order fillers. Combined, these occupations account for 56.8% of total retail trade employment.
- The top ten occupations in retail trade earn between \$21,500 and \$79,900, the highest paid position being general/operations managers. Aside from general/operations managers, the only other occupation to earn higher than the average wage for all occupations (\$42,300) is first-line supervisors/managers of retail sales workers, grossing \$20 more per year than the State average.
- The average salary for all retail trade occupations is relatively low, at \$31,000 per year; however, Nevada's average for these occupations is slightly higher than the national average of \$30,600 per year. In fact, the yearly income for retail trade occupations in the Silver State equates to 73.3% of average earnings for all Nevada occupations, while the same ratio for the Nation is only 64.7%.
