Number of Employers in Nevada Steady; Remains Near Record High

- The number of employers in the Nevada unemployment insurance system totaled 62,500 during 2015:IIIQ, falling slightly, by 0.1 percent, from 2015:IIQ.
- On a year-over-year basis, the number of employers in Nevada increased by 2,000 or 3.3 percent. Year-over-year, employer totals have increased in each of the past 17 quarters.
- From the recessionary low of 56,000 employers, Nevada has seen the number of employers grow by 6,500, an 11.6 percent increase. This corresponds with the improvements in the State's unemployment rate, which has fallen to a seasonally adjusted 6.6 percent in October from its peak of 13.7 percent.
