Number of Employers in Nevada Hits Another Record High; 24 Consecutive Quarters of Year-over-Year Growth

- The number of employers in the Nevada unemployment insurance system totaled 68,950 during 2017:IIQ, increasing by 760 employers, or 1.1 percent, from 2017:IQ. This is the 10th time in the past 11 quarters that the Silver State has established a new record high.
- On a year-over-year basis, employer counts in Nevada increased by 1,470, or 2.2 percent. This is the 24th consecutive quarter of year-over-year growth.
- From the recessionary low of 56,000 employers, Nevada has seen the number of employers grow by 12,950, a 23 percent increase.
- Employer totals are now 8,320, or 13.7 percent, higher than they were at the pre-recession peak, further evidence that Nevada's labor market have fully recovered from the impacts of the downturn, though additional room remains for improvement.
