Eureka/Lander/Humboldt/White Pine Pay Highest Weekly Wages in Nevada

- In the Quarterly Census of Employment and Wages (QCEW) Program, the Research and Analysis Bureau collects and compiles employment and wage data for workers covered by Nevada unemployment insurance laws, and federal civilian workers covered by Unemployment Compensation for Federal Employees.
- Based upon this information, Nevada wages average \$906 per week, as of 2016.
- Weekly wages range from \$680 (Lincoln) to \$1,830 (Eureka). Six counties have payrolls above \$1,000 per week. This can be attributed to the high concentration of mining jobs in these counties (Esmeralda, Eureka, Humboldt, Lander, Pershing, and White Pine).
- As for Nevada's major population centers, Carson City lies above the State average at \$909. Clark County and Washoe County fall slightly below the State average at \$897 and \$901, respectively.
