Note: 2018:144
December 14, 2018

Top Ten Projected Growth Occupations; Manufacturing Sector

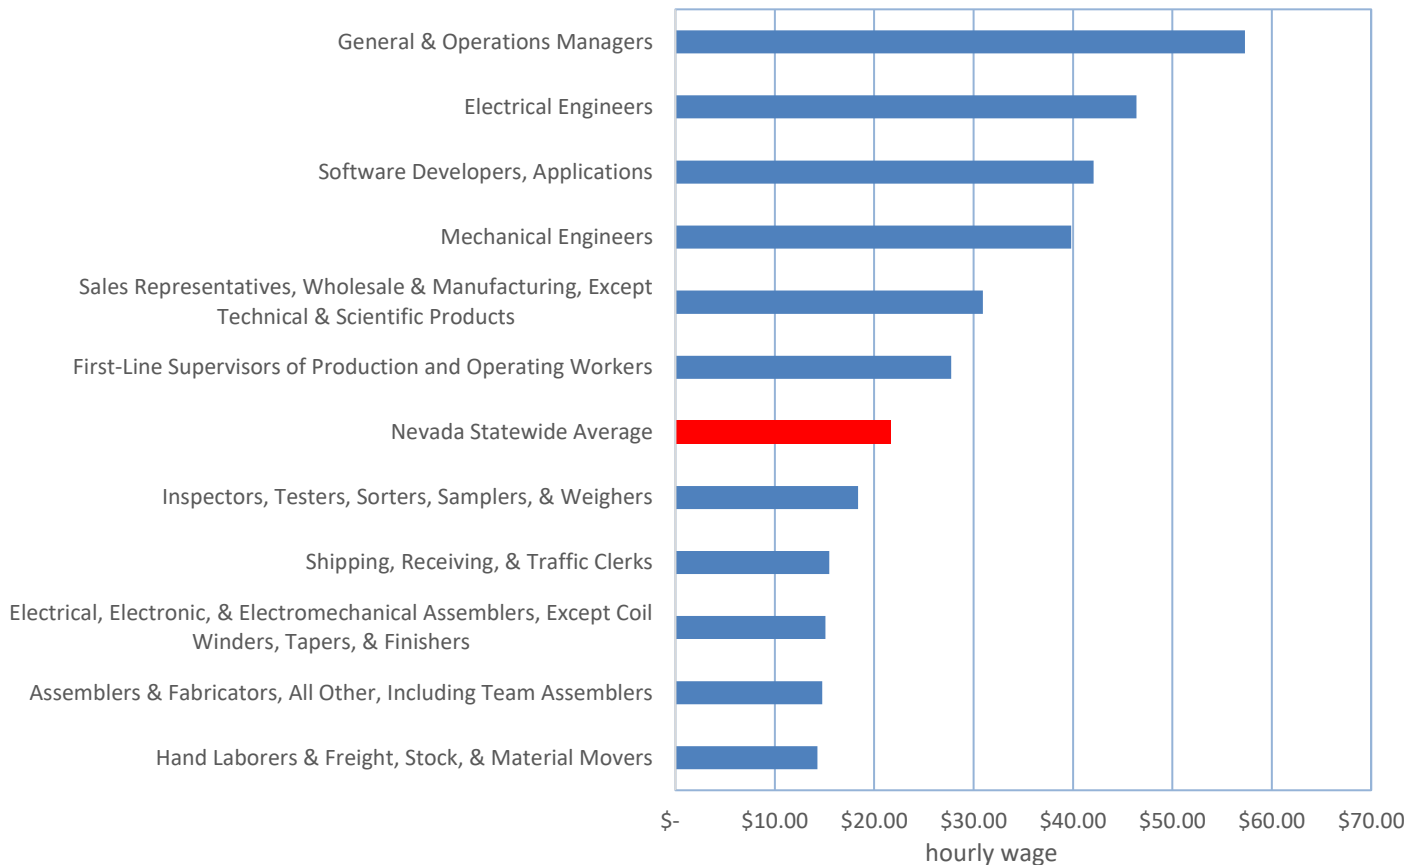

- The Occupation Employment Statistics (OES) program collects wage and employment data for 840 occupations and is the primary source of this information in the U.S. Ten-year projected data is derived from a detailed analysis of Quarterly Census of Employment and Wages (QCEW) industry data and OES information.
- Electrical & Electronic Equipment Assemblers represents, by far, the greatest expected 10-year nominal growth (1,700).
- First-Line Supervisors of Production & Operating Workers have an annual projected growth rate of 12.0%, and General & Operations Managers have an expected annual growth rate of 3.9%. This gain will result in approximately 2,100 more jobs in the supervisory and managerial positions.
- Nevada's Mechanical Engineers have an annual predicted growth rate of 10.4%, and Electrical Engineers are projected to grow by 14.6% annually; collectively representing over 1,200 jobs in 10 years.

Research Notes

Mean Hourly Earnings for Top Ten Growing Occupations; Manufacturing Industry

Compensation Within Nevada's Manufacturing Industry:

- The mean hourly wage for General and Operations Managers in the manufacturing industry is \$57.31. When compared to their non-manufacturing counterparts, General and Operations Managers make on average \$0.91 more per hour.
- Electrical engineers earn a mean hourly wage of \$46.39, and mechanical engineers earn a mean hourly wage of \$39.82.
- Five of the ten fastest growing occupations earn \$6.00 or better per hour than Nevada's average statewide hourly wage of \$21.65.
