March 30, 2018

Eureka/Lander/Storey/White Pine Pay the Highest Average Weekly Wages; Driven by Mining, Manufacturing, and Logistics

2017:IIIQ average weekly wages

- In the Quarterly Census of Employment and Wages (QCEW) Program, the Research and Analysis Bureau collects and compiles employment and wage data for workers covered by Nevada unemployment insurance laws, and federal civilian workers covered by Unemployment Compensation for Federal Employees.
- Based upon this information, Nevada wages averaged \$914 per week, as of 2017:IIIQ.
- Weekly wages range from \$753 (Lincoln) to \$1,762 (Eureka). Six counties have payrolls above \$1,000 per week. This can be attributed to the high concentration of mining in these counties with the exception of Storey County where wage growth was driven by manufacturing and logistics.
- As for Nevada's major population centers, Carson City wages totaled \$930 per week through third quarter. Washoe County, at \$933, came in just above the statewide average. Clark County was slightly below State average at \$898 per week.
